

## Honda Kotaro 本多 光太郎

📎3年生 (受け身・関係代名詞)

### *Honda Kotaro*

*Honda Kotaro* was born in Okazaki. He made a special kind of \*steel that was used for \*magnets and helped Japan develop and become strong. The \*machines that used his steel worked better and for longer. His ideas were full of creativity and changed people's lives. People call him "the \*Edison of Japan."

注) \* steel: 鋼鉄 \*magnet: 磁石 \*machine: 機械

\*Edison: トーマス・エジソン 米国の発明家(1847-1931)
